The Bay of Cádiz, on the southern Atlantic coast of Spain, has become a popular winter training base for many teams all over Europe. Winters are short and mild, with relatively low rainfall and a high number of hours of sunshine.

With an annual average temperature of 21 °C, El Puerto de Santa María has perfect conditions for sailing with NW 12-18 knots/annual media.

The winds characteristics of El Puerto de Santa María are Levante and Poniente, needed to practise nautical sports and that turn the Bay of Cádiz into one of the best places in the world for yacht and dinghy sailing boats races. Wind never Fails!!

Perfect sailing conditions from May to September. It is an ideal time to do tourism too and enjoy a holiday in the south of Spain.

The water sea conditions use to be very quiet and warm. The tidal range is about 2 metres and tidal currents are generally about 2 Knots.

By air

- Jerez de la Frontera is the closest but smallest airport and has many flights to and from different countries. From Jerez you can take a bus, train or taxi to El Puerto, which takes about half an hour.
- Sevilla airport is the next closest and a slightly bigger airport. From the airport it is very easy to get to El Puerto: there are buses that take you to Sevilla train station (Santa Justa) from where you can take a direct train to El Puerto, there are apx. 10-15 trains daily and the cost is around 18€ one way.
- Malaga airport is the biggest airport in the area and has the most connections with many cities and countries from around the world. All the cheap airlines operate out of the airport and cheap flights are nearly always available. You can take the train to Dos Hermanas (one stop before Seville) and then to El Puerto.

By train and bus

El Puerto is well connected to all of Spain and even has a high speed train connection with Madrid and Seville. Go to the Renfe (Spain's train company) website, link at top of page, to get the most up to date information on train times and connections.

Rafael Martín-Prat
C.E.O. Puerto Sherry F18 Worlds 2021

One of the best racing courses I've been to. It has very good conditions for sailing, there is always wind and has very good weather throughout the year. It is also normal to arrive in winter and find most of the European Olympic teams training in Puerto Sherry ... ". Joan Vila

"I have participated in several World Cups and I am convinced that the Bay of Cádiz, as a race course, and the Puerto Sherry Yacht Club as an organizer, will make an event that the sailors will not forget either at sea or on land". Guillermo Altadill

"The infrastructures of Puerto Sherry and the quality of the Race Area in the Bay of Cádiz are the best suited to celebrate an international F-18 event. One of the longest beached ramps in the world and prevailing winds ensure safe success". Juan Luis Paez

"Cadiz's Bay never disappoints, always with constant wind and in an incomparable venue. Highly recommended for any nautical event, for the hospitality and the friendliness of its citizens, that make us feel at home.". Jordi Calafat

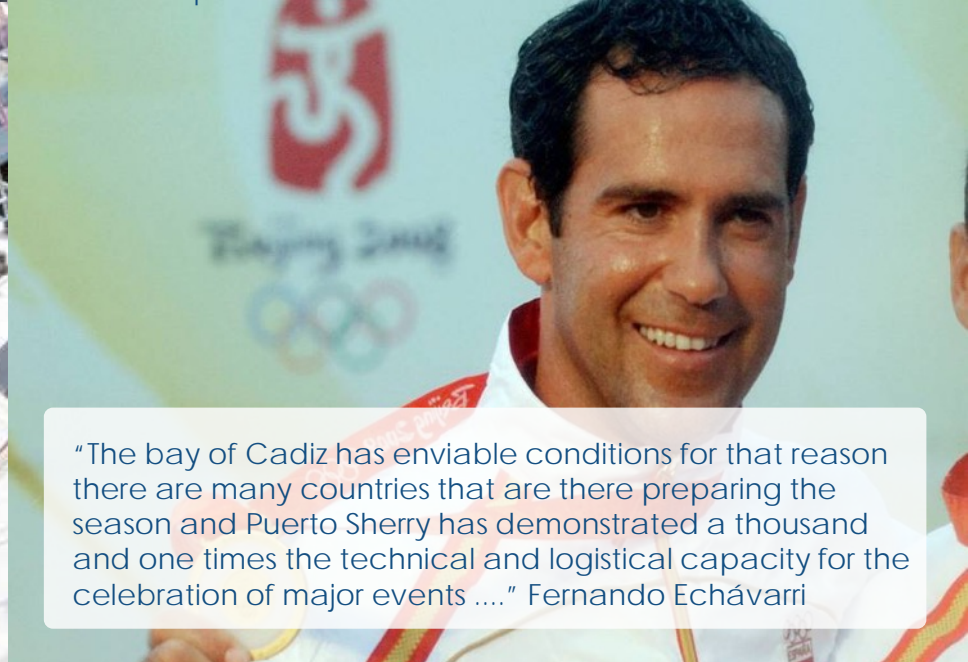

"The Bay of Cadiz has a permanent wind, Poniente and Levante, and pleasant temperatures all the year round, all kind of waves, sea currents... a technical and varied race course. I have great memories from all Championships that I contested in Puerto Sherry." Iker Martinez

"After my involvement in the 35th America's Cup in Bermuda I am more aware than ever of the suitability of the Bay of Cádiz as a regatta field for foiling catamarans because of its meteorological and geographical conditions. This together with the guarantee of having the CN Pto Sherry as organizer ensures the success of the requested championship." Chato Domecq

"It is a very demanding race course with the sailors because of the variety of its conditions, ideal for foiling catamarans, and where the hospitality and professionalism of the people guarantees the success of the championship" Jose Maria Van der Ploeg

"The bay of Cadiz has enviable conditions for that reason there are many countries that are there preparing the season and Puerto Sherry has demonstrated a thousand and one times the technical and logistical capacity for the celebration of major events" Fernando Echávari

"whenever I have sailed here I have enjoyed a lot because of the variety of conditions and the demanding of the race course, we have always completed the number of races scheduled for each championship" Luis Doreste

"The Cadiz Bay is an unique spot to sail, train and race. I've been coaching olympic teams more than 10 winter periods and we always could sail. Big and choppy waves, flat water, tides/no tides; wind from N-E-W- + warm weather and sun. Without doubt one of the best Sailing spot in Europe" Anton Garrote

"The bay has very good wind conditions, and if it is the yacht club Puerto Sherry who organizes the European is a guarantee." Jose Maria (Pichu) Torcida

"The Bay of Cadiz offers the finest conditions for sailing, and thus has become one of the best locations in the world for regattas. It is an excellent environment where Winds from the West and South are almost constant. The Bay is very protected, few waves, so in case any, are very long-wavelength, these are excellent conditions for hidrofoils catamarans. If I could, I would be delighted to attend this event" Axel Rodger
