AN

Dear all,

Voting by the World Council continues on Hungary's proposal to move the effective date of the new class rules forward to 27 June 2018 in order to allow participation of "epoxy" boats at the 2018 Europeans.

Deadline for your votes remains 12 March.

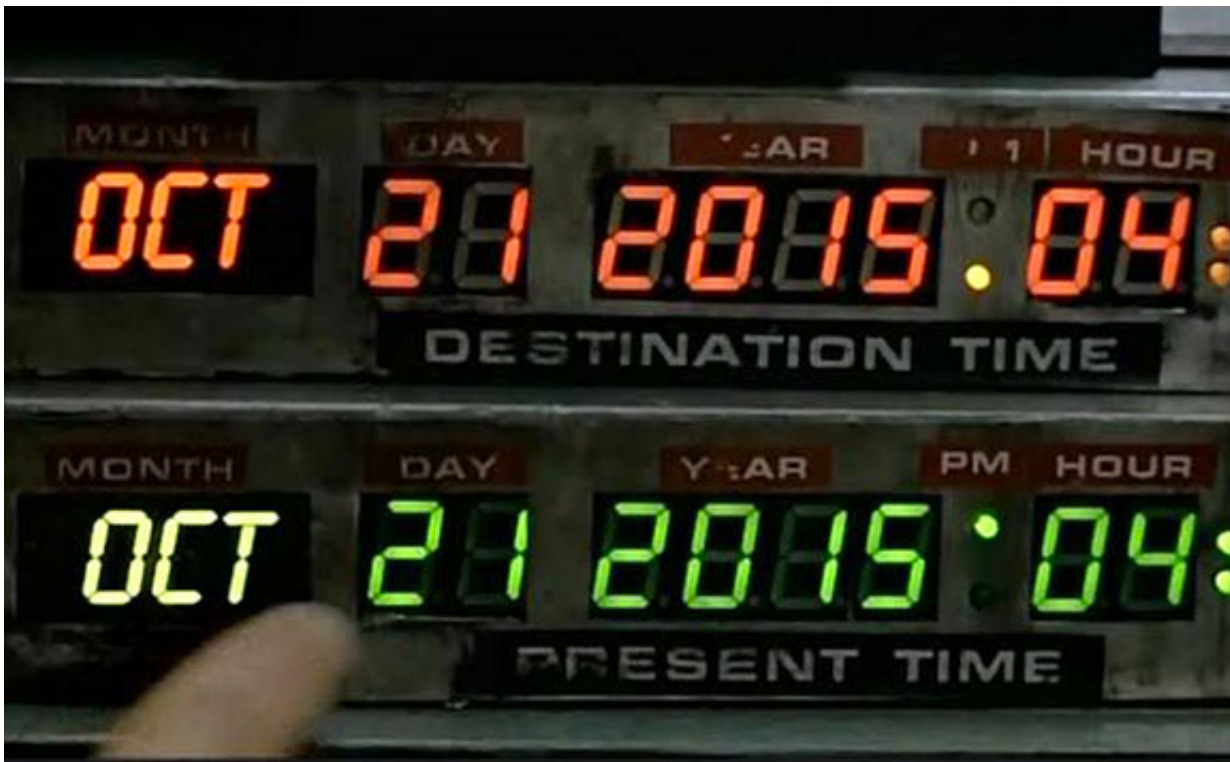

Kind regards
Ad

Ok thanks Darren, it's obviously a typo.

Ad , can we please issue a correction for the start date.

Dear Sandor Roka,

Thank you for your proposal, it would appear that most countries have now voted. This will mean the new class rules will come into effect in 2108 precisely 90 years from 2018!

Not an ideal situation

Best Regards

Darren Flanagan

Australian F18 President.

Subject: [F18-WC] Proposal for new effective date for new class rules - epoxy - 27 June 2108

Dear WC, Dear Ad,

On behalf of the Hungarian NCA I want to submit the following proposal:

We propose that the effective date of the new class rules are moved forward

from 13 July 2018 to 27 June 2108,

the day before the first day of measurement for the 2018 Europeans.

This would move forward the effective date of the new class rules by less than 3 weeks. This change will allow epoxy-built boats participate at the 2018 Europeans. We think that this change will help increase the number of entries at the upcoming Europeans without compromising fair racing because teams racing with epoxy-built boats will not enjoy any performance advantage.

We ask that a special meeting of the World Council is called so that we can vote on this proposal as soon as possible.

thanks in advance,

Sandor Roka

F18 Hungary
