Status: Approved

## Amendment Two

---

### D.5 TRAMPOLINE

#### Old:

##### D.5.1 MATERIALS

- (a) The type of material used is optional; however, netting is not permitted.
- (b) The material shall not have holes any larger than 5 mm, when fitted in sailing position, with the exception of holes for sails/sailing adjustments and trampoline tensioning.
- (c) Temporary damage to trampoline is not classed as holes.

##### D.5.2 CONSTRUCTION

- (a) A single trampoline, which may be in separate sections, shall cover the area between the front beam, the rear beam and the **hulls**.
- (b) Fittings for the attachment of the trampoline are optional.
- (c) A gennaker bag is permitted.
- (d) Storage bags and pouches are permitted

#### Amend to read:

##### D.5.1 DEFINITIONS

A Trampoline is an item of equipment with the primary function of carrying the **crew**, which covers the area between the front beam, the rear beam and the **hulls**.

##### D.5.2 MATERIALS

The type of material used is optional, provided that the body of the sheet of material is capable of being folded flat in any direction without damaging other than by creasing.

##### D.5.3 CONSTRUCTION

- (a) The Trampoline, which may be in separate sections in the horizontal plane, shall consist of one or more sheets of material.
- (b) Separation in vertical independent planes is permitted. The maximum distance between the outer vertical independent plans shall be 200 mm.
- (c) The Trampoline may partly cover the front beam, the rear beam and/or the **hulls**.
- (d) The following are permitted: stitching, welding, glues, zips, tapes, hook-and-loop fasteners, slides, bolt ropes, storage bags, pouches, holes, fittings and items as prescribed or permitted by other applicable *rules*.
