

## Comments on Final 2023 Figures

- A close to 6.000€ surplus, generated by the new certification system, covering easily database further development and maintenance, and freeing the class to chase sponsors.
- Steady membership, close to 800 members worldwide, which is encouraging.
- only 10 plaque sets delivered (36 in 2022, 78 in 2021). Probably some plaque sets stock made by builders, as we delivered close to 900 numbered stickers during 2023 year.
- Communication & Promotion under planned budget as Travemünder Woche finally covered tracking at Worlds.
- Bank charges over budget due to many transfers for stickers orders... but rather high bank interests due to higher rates...
- Pretty healthy situation with 30.000+ euros on our accounts by 2023 end...
